Dear Parents/Carers,

Re: Changes to Year 7 Geography Homework

I am writing to let you know about a change to the platform used for geography homework. This change is designed to increase the time students spend thinking carefully about their answers while reducing the time spent writing out questions and answers. After a successful trial with several classes, we are pleased to introduce this approach to all students in Y7.

Students will now use [Educake | An easier way to assess learning](#) to complete their homework. The homework will still be posted on Satchel One, with a link for students to follow to complete the quiz. Each homework task will consist of a 10-question quiz. To complete their homework, students must get all 10 questions correct and achieve a score of 100 percent. It is important to note that students can attempt each quiz as many times as they need. If they get a question wrong, they will be shown the correct answer before trying again.

Students will receive their login details from their class teacher. If they have any difficulty logging in after receiving their details, they are welcome to do any of the following:

- Use their phone or a school device at break or lunch to log in with their class teacher
- Get support from any member of the geography department
- Visit me in the office next to GM08 if they cannot find their teacher

Thank you for your support with this change. We understand that adapting to a new system can take a little time, but we are confident that this approach will help students focus more on their learning and strengthen their understanding over time.

Yours sincerely,

Rachel Reiss

Head of Geography
